

## Navigate: Class Schedule Feature

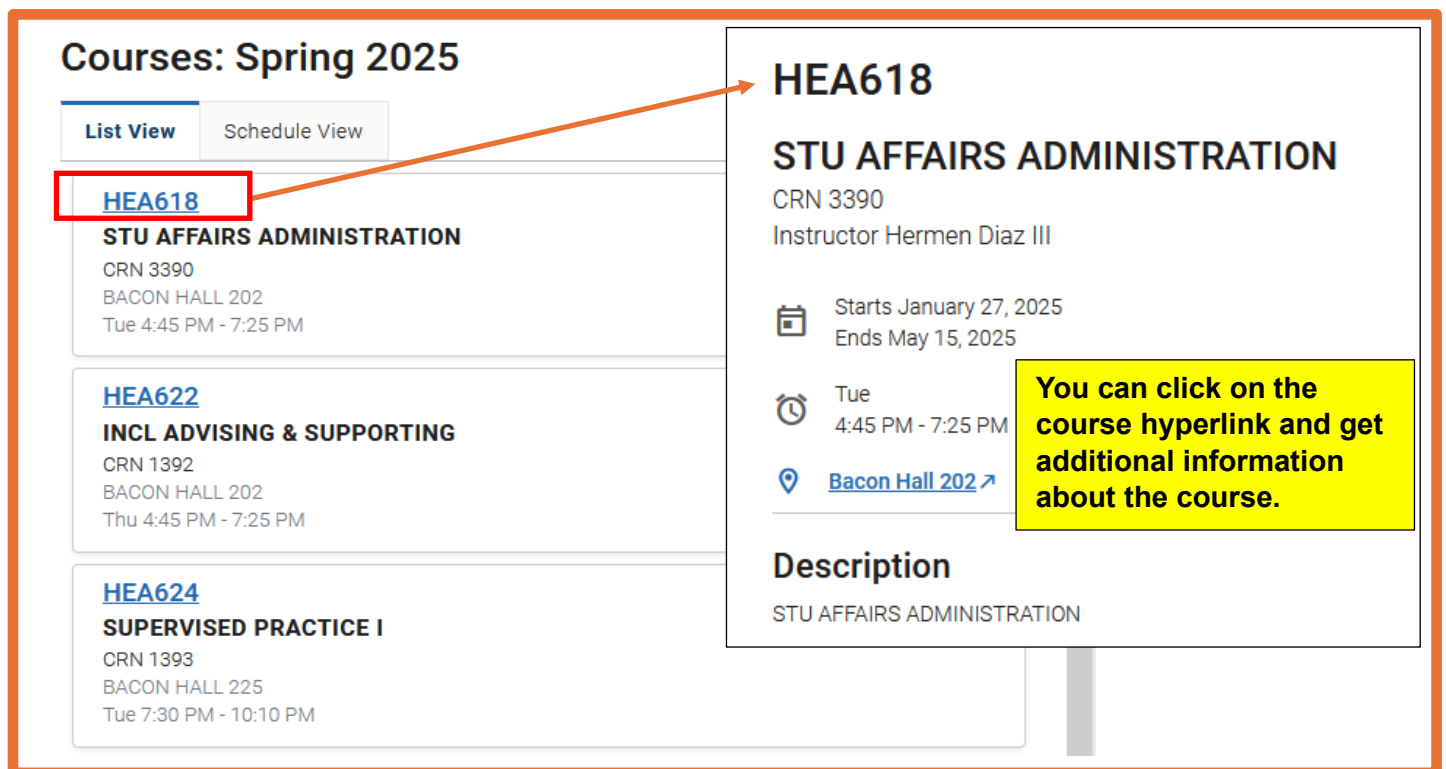

Students use **Class Schedule** to see the course section information for all the classes they are registered for in the current term.

### Feature Overview

Use Class Schedule to see course section information for all the classes you are registered for in the current term. Students can use the filter in the upper right-hand corner to change the term and see courses for any other term in which they are actively registered.

**Note.** Class Schedule relies on course section start and end times and it does not reflect day-to-day changes, such as holidays or class cancellations. School events can help with showing holidays to students.

The Class Schedule has a list view and a schedule view for all terms. Location and time information for each course section is available from the list view of the Class Schedule. The section title, section labels, and CRN or section number is also available.

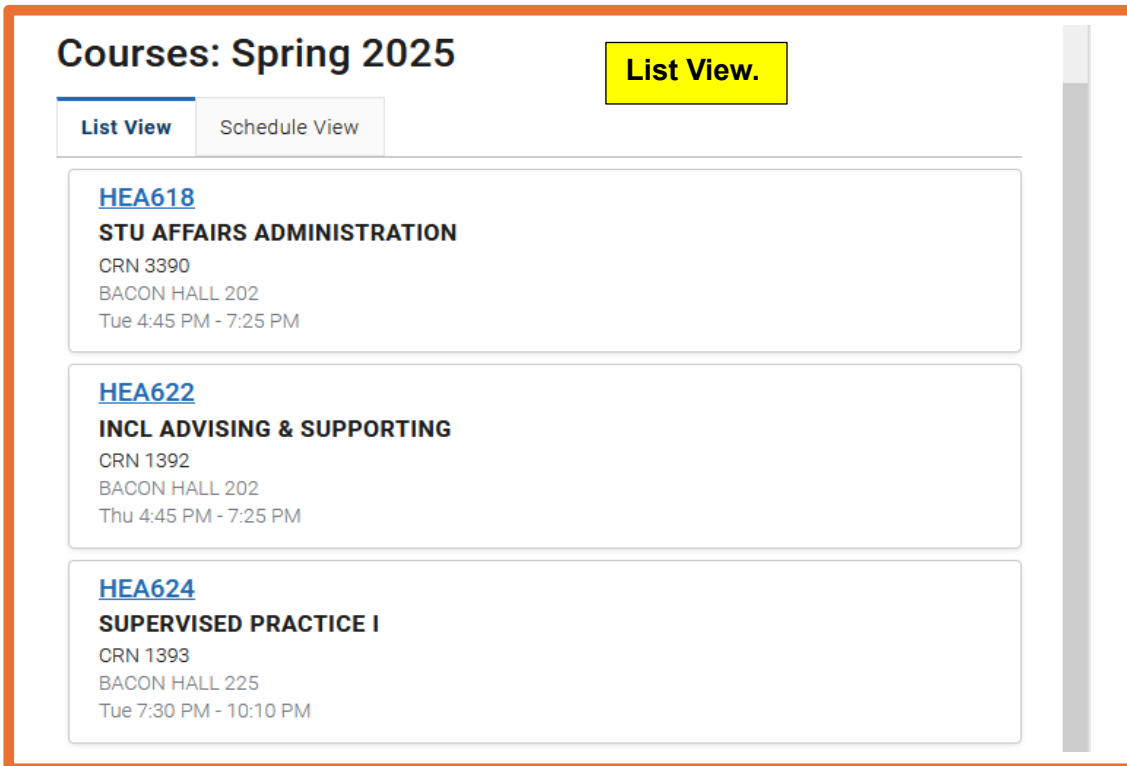

The screenshot displays the 'Courses: Spring 2025' interface. On the left, there are two tabs: 'List View' (selected) and 'Schedule View'. Below the tabs is a list of three course entries. The first entry, 'HEA618', is highlighted with a red box. An orange arrow points from this box to the right-hand side of the screenshot, which shows a detailed view for 'HEA618'. This detailed view includes the course title 'STU AFFAIRS ADMINISTRATION', CRN 3390, and instructor 'Hermen Diaz III'. It also lists the start and end dates (January 27, 2025 to May 15, 2025), the day and time (Tue 4:45 PM - 7:25 PM), and a location link 'Bacon Hall 202'. A yellow callout box with a black border points to the 'Bacon Hall 202' link, containing the text: 'You can click on the course hyperlink and get additional information about the course.' Below the detailed view is a 'Description' section with the text 'STU AFFAIRS ADMINISTRATION'.

Students accessing the Class Schedule via the mobile app have the option to add all their courses to their native smartphone calendars by selecting **Add All Courses to Calendar**. To download their class schedule, students first need to allow Navigate360 Student access to their smartphone calendar. This typically occurs the first time the student logs into the mobile app, where a student is prompted to grant permission to access their calendar. This permission can be updated at any time in their smartphone settings page. Students can add one specific course to their smartphone calendar by selecting that course and clicking **Add Course to Calendar**. Students can read the description of course labels by hovering on a label on desktop or tapping a label on mobile.

Opening an individual course displayed all available course information, including the instructor, the start and end dates of that course, the days and times that the course section meets, the location, any section labels, and a description.

**Note.** Course details such as location, instructor, and description only display if they are stored in Banner.

There are two views of the Class Schedule, **List View** and **Schedule View**.

## Courses: Spring 2025

**Schedule View.**

List View **Schedule View**

### Previewing schedule for all classes throughout this term

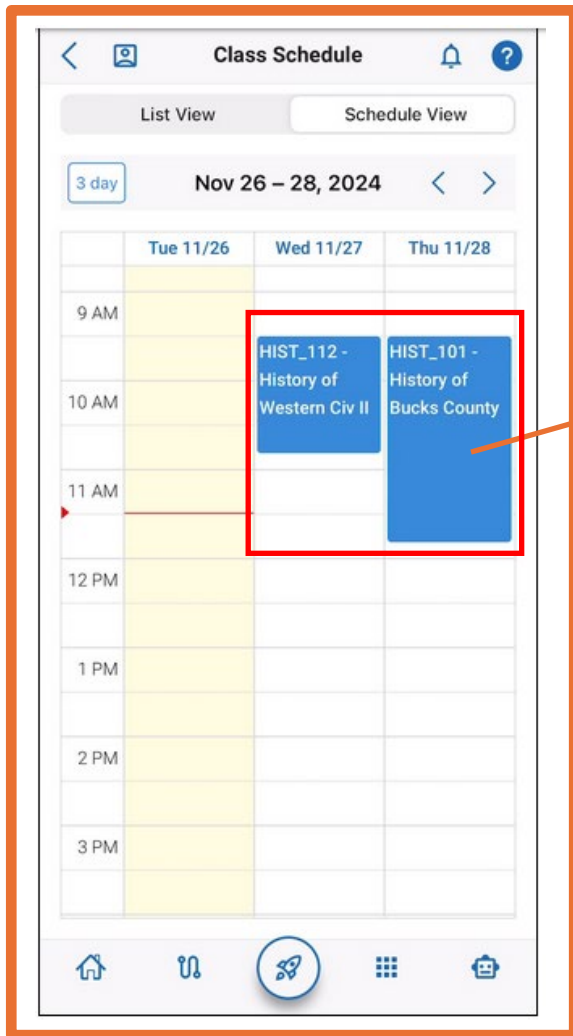

The schedule view is a graphical representation of the calendar. If you need a **fully accessible** interface, please use the list view.

Time	Su	M	Tu	W	Th	F	Sa
6 am - 7 am							
4 pm - 5 pm							
5 pm - 6 pm		HEA618			HEA622		
6 pm - 7 pm							
7 pm - 8 pm							
8 pm - 9 pm		HEA624					
9 pm - 10 pm							

**You can click on the course box and get additional information about the course.**

The other tab is the **Schedule View** on mobile and desktop. It is not fully accessible. Students can scroll horizontally on mobile to see all days of the week.

The schedule view **for the active term** only shows the courses taking place in that current week. For example, the week of June 23 to June 29 would only show and have a banner display that reads *Your schedule for 6/23 – 6/29*. Sunday is the start of the new week. If a student looks at their course schedule for a future term, that display shows all courses scheduled for that term. The banner reads *Previewing schedule for all classes throughout this term*. Therefore, even if students are registered for courses that only meet during a particular session of the term, they still appear in that future term display. On the new mobile experience, students can switch between 1 day, 3 day, and 1 week view for upcoming classes.

**You can click on the course box and get additional information about the course.**
